PROFILE

I am a dynamic, detail oriented front end web developer with an excellent track record building and leading teams to success. I love writing clean, easy to understand code and above all am a champion for accessibility on the internet. I have a deep curiosity for learning more about web development and am excited to make an impact on the way people's lives are affected by it.

PROJECTS

M.K.G MIXER | ES6 JAVASCRIPT | SASS | HTML

A mixer with built in songs cut into snippets and assigned to buttons so you can make your own beats. Made using vanilla JavaScript and styled with SASS

PROJECT LINK

BOTTOM BIN CINEMA | JQUERY | REST API | SASS

Random movie generator that helps you decide what to watch tonight. The caveat: all movies are rated 5/10 or lower! Built with paired programming and required excellent communication and team work. Used jQuery to access the Movie Database API, project styled with SASS.
